

BASIC WATERCOLOR MATRIX

Color Mixing Chart

Lemon Yellow ↓										
	Lemon Yellow ←									
		Yellow Ochre ←								
			Burnt Sienna ←							
				Pyrol Red ←						
					Alizarin Crimson ←					
						Cerulean Blue ←				
							Ultra- Marine Blue ←			
								Cobalt Teal Blue ←		
									Hookers Green ←	

This is a basic watercolor matrix color chart. To use it, pick a color that is most like the color you need to paint. Look at the color name above it and across from it to see what colors were used to mix it. You can tweak the color by using more or less of one or the other color. Adding water lightens it, adding paint darkens it.
